Speciality Enzyme Tools & Resources

For decades Worthington has been writing and publishing technical manuals on the subject of enzyme technology, proteins, nucleic acids and our products. Our vast library of publications is available to researchers and students worldwide free of charge. For a Cell Isolation Wall Poster go to: <https://www.worthington-biochem.com/tools-resources/resource-library>

Collagenase Sampling Program

There is no charge for participating; under this program, individual researchers are provided with 100 mg samples of up to three different lots or types of collagenase for evaluation in their own applications. For more details on this program go to: <https://www.worthington-biochem.com/support/collagenase-sampling-program>
