Spotlight on Trainees

Post-doctoral collectives: pathways to a more fruitful experience?
No two post-doctoral experiences are the same, turning the gamut of reanew minor descriptions from "the best time of my working life," to an angst-filled "three years to lay the golden egg." Traditionally relying principally on one's advisor, labmates, and

Propose a session for Vascular Biology 2017
We're looking ahead to Vascular Biology 2017 (October 15-19 at the Asilomar Conference Grounds) and we want your input. The NAVBO Council and the meeting organizers (Vicki Bautsch, Brian Black, Craig Simmons and Jessica Wagenseil) are seeking proposals from NAVBO members for a new session. This new session may or may not be directly related to the workshop themes. In 2017, we will present the Developmental Vascular Biology and Genetics Workshop and the Vascular Matrix Biology and Bioengineering Workshop. Our goal is to broaden the scope of our meetings, enhance the member experience and respond to our members' interests. To submit your proposal complete this [pdf form](#) and email it to info@navbo.org. Submissions are due May 1, 2016.

News You Can Use

HHT Organ and Tissue Samples Available for Research Use
Anatomy Gifts Registry (AGR) recently received an HHT body donation, and the following samples are now available for HHT research:
