

Vazyme Biotech – For Science, For Health

Vazyme is a global biotechnology company dedicated to developing innovative technologies, products, and solutions for life science research. Our portfolio covers molecular biology, PCR/qPCR, nucleic acid extraction, NGS library preparation, cell and protein research, and laboratory instruments, supporting researchers from sample preparation through downstream analysis.

Special Offer for Conference Attendees

We are pleased to offer researchers:

- FREE demo & trial of the VNP-32P Automated Nucleic Acid Extraction System
- FREE demo & trial of Vazyme qPCR machine FMR-5S Delphi Smart Quant System
- FREE trial samples across a wide range of Vazyme reagents
- Special promotional pricing available for academic laboratories
- Complimentary Vazyme gifts and giveaways for participating labs

Whether you are looking to streamline nucleic acid extraction, optimize your PCR/qPCR workflow, or evaluate new reagents, we would be happy to arrange a **complimentary trial or demo** for your lab.
