

Stanford University

July 22-25, 2024

Preliminary Program Special Lectures by:

Mark Krasnow, MD, PhD, Kristy Red-Horse, PhD,
Joseph Wu, MD, PhD and Marlene Rabinovitch, MD

Sessions:

- Basic Vascular Biology and Recent Innovations
- Vascular Diseases and Disease Models
- From Biology to Therapy
(Translational Research)
- Turning Promising Research Ideas
into Clinical Applications

Plus:

- Grant Writing Workshops
- Panels on Career Development
- Workshops
- Poster Sessions
- Scholarships
- Networking
- Affordable Housing

**Visit the website for full
program, to register,
submit an abstract, and
apply for a scholarship!**

Vasculata is a four-day course on vascular biology, providing an introduction and overview of the field. Trainees are especially encouraged to attend; however, anyone at any level is welcome. Undergraduates can register for \$75* and graduate students and postdocs only pay \$245.* *NAVBO members can save more.*

Early bird registration discount ends May 31. Online registration ends July 19 navbo.org/vasculata

*Early bird rate
